## SAMPLE CHEST IMMERSION AGENDA

### Chronic Thromboembolic Pulmonary Hypertension (CTEPH)

#### Evening Assignments

##### Problem-Based Learning Case:

- Each participant will be given one of several cases with incomplete diagnostics for review with a list of questions on the case.
- Participants will be divided into physician lead groups on the following day.
- Groups will create a PowerPoint of the diagnostic plan to present to the entire audience.
- Each case will have a different focus.

##### Journal Articles:

- Each participant will be given two groundbreaking journal articles impacting PAH/CTEPH.
- Participants will answer three to five questions on the publications.
- Articles will be discussed on day 2 in a roundtable interactive journal club review.
